Newsletter #74

## February Shoot Notes

Well we've gotten by the January and February shoots pretty lucky as far as the weather is concerned. I remember shooting many times in bitter cold, ice, snow, and frozen mud. Our totals reflect this milder weather. I'm just afraid of what July and August might bring.

I've already been bitten by mosquitoes back on February 23rd. It may be a rough year ahead for bugs. I was talking to Jim about it and he said he thinks the ticks will be especially bad. If you remember his tick ordeal last summer, you can understand his concern. I told him to go by Feeders Supply and get some Frontline. Bring it to the club and one of us will squirt it on the back of his neck. If it works on dogs it ought to work on Jim.

**THANKS to Dennis for the info!!**
